Once you have your map, edit it by double clicking on it. Then click on Edit Data on the right panel.

**3**

You can edit the values for each state or province by changing the numbers. The states/province will change colors based on the value.

You can pick different colors to represent the MAX and MIN values.

**Max Color (Standard Only)**

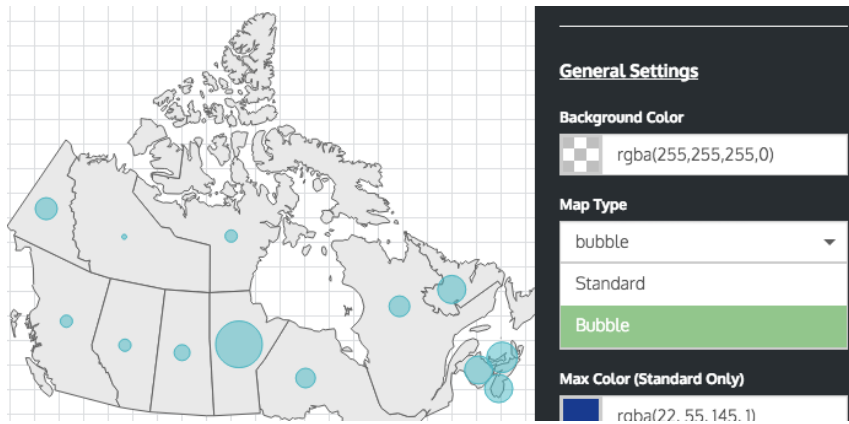

rgba(22, 55, 145, 1)

**Min Color (Standard Only)**

rgba(133, 184, 190, 1)

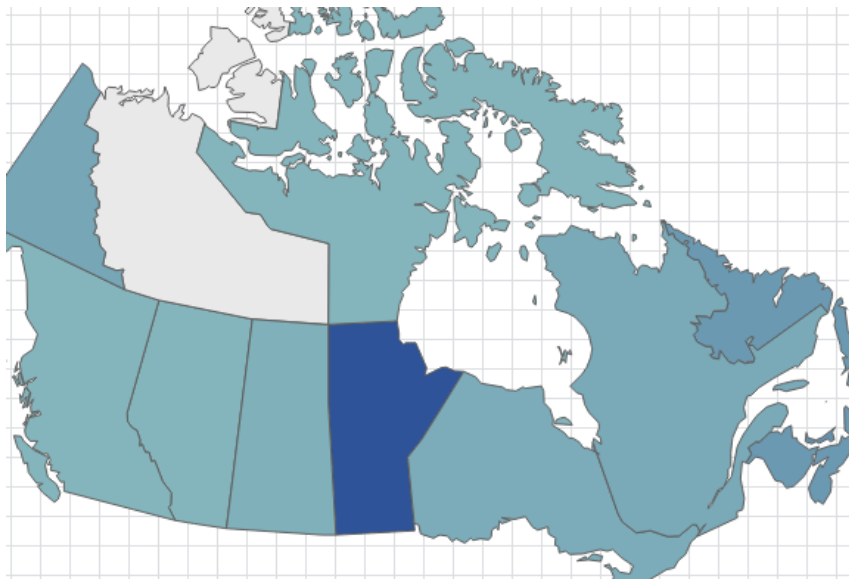

5

To change the display type, click on Map Type and choose the Bubble style to display the values as bubbles.

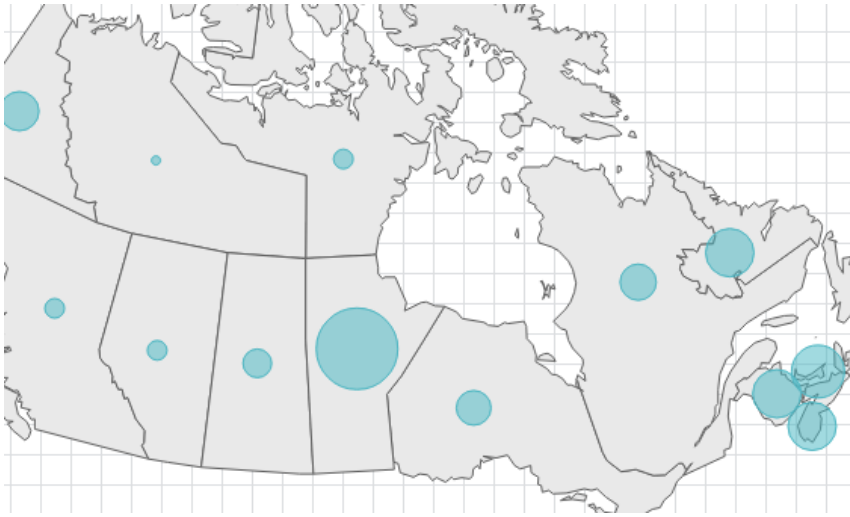

**There are many different maps in Venngage. All maps are data-driven, meaning, data can be used to change the display of the maps. There are 2 types of display: STANDARD and BUBBLE.**

**The Standard type shades each state or province in the map according to its value.**

**The Bubble type displays a bubble over the state or province with the size according to its value.**
